# Nuance® PowerShare™ Network

Free patient accounts can be created on the fly by using a patient's email address. Follow the Invite + Share step-by-step instructions to invite a patient and share their images simultaneously.

Take charge of patient sharing

With PowerShare you can provide a patient with secure and convenient access to their medical images & documents.

How to invite a patient to connect and *share* their images simultaneously:

Push patient's images from PACS to your facility's PowerShare account
(Typically: Port: 4104   AET: POWERSHARE).

Login to PowerShare at
www1.nuancepowershare.com

Click on the 'Images' tab and locate the appropriate Image

Under the actions list to the right, select 'Share these Images'

say "PowerShare"

Sharing Images

Select Images to Share — Review Images

- Select from your "My Contacts" list.
- Click the **Share** button.
  - or -
- If the desired contact is not in your "My Contacts" list, click on the "Search for a new contact" link to locate the desired contact.

When you share, the other account will be able to view the images selected.

My Contacts [Type contact name] ⓘ or Search for a new contact

[Share with a contact] or Cancel

Select 'Search for a new contact'.

Network

Invite   ×

The contact you selected has been invited to join your network. You will be notified when a response is submitted.

Image ID: 6037833077323935050

Token Code: 4VKRRLEYDWVS

🖨 Print ID and Token Code

Back to the Contacts tab

Click the 'Print ID and Token Code' link.
Provide patient with Token Code.

The patient will receive an email from Nuance PowerShare support, containing a link for them to register for a free PowerShare account. Once completed, they will be able to login to their account and click the Images tab to view images once the token code is successfully entered.
